

## KEY ATTRIBUTES:

- Design & Build Refurbishment
- Modular Pod Installations
- Fire Bay Construction

## BANSTEAD FIRE STATION

The works comprised of:

- The design and construction of a freestanding Fire Appliance Bay.
- The design and installation of a new concrete base for the building, new ramped access and new service ducts linking the bay to the existing building.
- The refurbishment of the existing building to create the new accommodation required.
- The redecoration of all identified areas and the replacement of floor, wall and ceiling finishes.
- New fire doors.
- Replacement kitchen units.
- A new partition wall to BA servicing area and drying room.
- New shower cubicles within the shower room connected to mains drainage externally.
- Remodelled, repair and upgraded services.
