

KEY ATTRIBUTES:

- Window Replacement
- Conservation Area
- Residents in Occupation

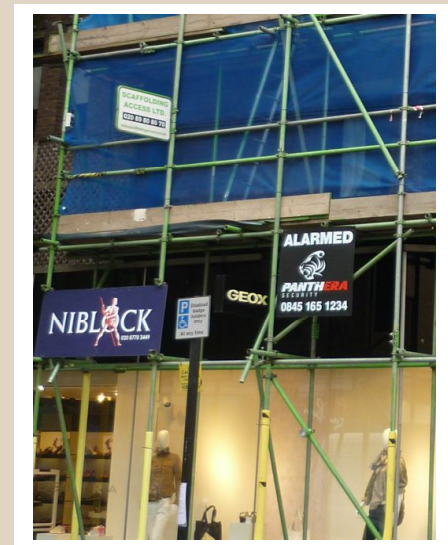

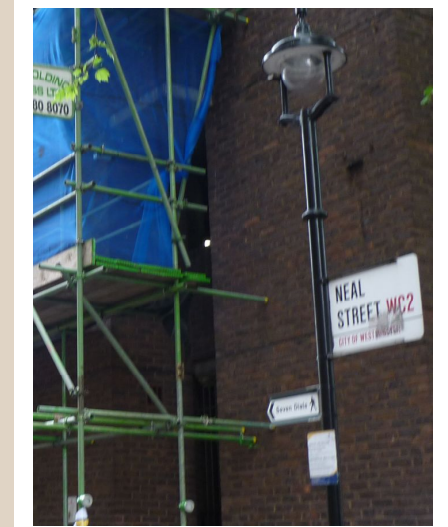

**ODHAMS WALK
COVENT GARDEN**

Window replacement, external repairs, new electrical ventilation and decorations to common areas.

Situated in the heart of Covent Garden is Odhams Walk, an ex-GLC Estate comprising 102 no. flats in a courtyard setting, bounded by Neal Street, Longacre, Endell Street and Shelton Street.

This project represented a unique challenge in that all external elevations had to be fully scaffolded whilst maintaining pedestrian access for shoppers, tourists, deliveries and emergency services.

The extent of scaffolding necessitated road closures and traffic diversions, all of which was agreed with the City of London's Highways Department.
