

KEY ATTRIBUTES:

- Phased and Fast Tracked Programme
- COVID-19 Secure and Segregated Works Access and Egress
- Increased Natural Daylight

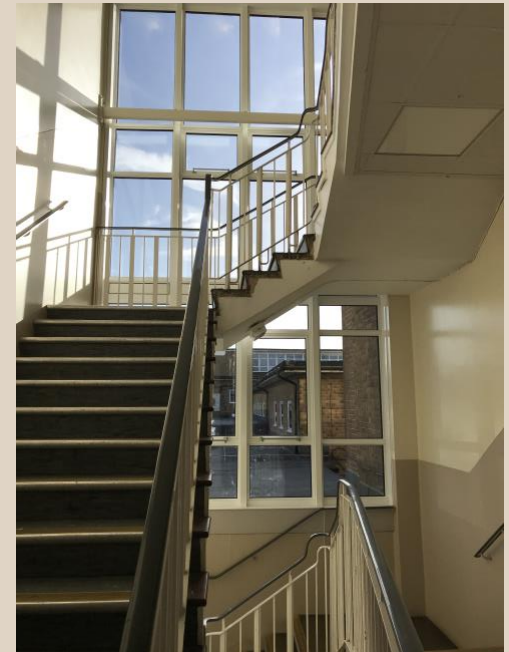

IMBERHORNE UPPER SCHOOL

The failing flat roof at Imberhorne Upper School, East Grinstead, was resurfaced with a Bauder guaranteed insulated roof system, together with the introduction of increased natural daylight.

Works included:

- Critical controlled asbestos removal in some areas to facilitate works.
- Removal of flat roof coverings.
- Preparation and priming of the existing timber deck.
- Installation of 7no. new rooflights.
- Tapered insulation to provide falls to outlets.
- Cavity tray installation to roof perimeters.
- Design and installation of curtain walling to stairwell.
- Installation of new aluminium windows.
- New fascia, soffits and gutters.
